Is He Tumblety's Man Friday?

English Detectives Prosecuting Inquiries in This City.

The Mysterious Man Who Figured in the Doctor's American Career,

And Later Went With Him to Europe—
A Shadow That Never Left His
Master's Side.

It has been known for some days past that detectives have been quietly tracing the career in this city of Dr. Francis Tumblety, one of the suspects under surveillance by the English authorities, and who was recently followed across the ocean by Scotland Yards men.

From information which leaked out yesterday around Police Head-quarters, the inquiries presented here are not so much in reference to Tumblety himself as to a companion, who attracted

The investigation in this city is understood to be under the direction of English officials now in New York, and based upon certain

Dear Boss

I keep on hearing the police
 have caught me but they went for
 me just yet. I have thought when
 they look in closer and talk about
 being on the right track. That job
 about leather lissen gave me real
 fill. I am down on wheels and
 I shant quit reppery them till I
 do get buckled. Grand work the last
 job was. I gave the lady no time to
 squeal. How can they catch me now.
 I love my work and want to start
 again. You will soon hear of me
 with my jaunty little game. I
 saved some of the paper red stuff in
 a gingerbeer bottle ever the last job
 to write with but it went thick
 like glue and I cant use it. Red
 ink is fit enough I hope see see.
 The next job I do I shall clip
 the lady's ears off and send to the

Just officers just for jolly wouldnt
 you keep this letter back till I
 do a bit more work then you
 it out straight. My knives is new
 and sharp I want to get to work
 right away if I get a chance.
 God luck

Yours truly

One of the Whitechapel murder suspects is
a curious character known as Dr. Tumblety,
who 15 years or more ago was considered an
eccentric person of Boston. He was seen
quite frequently on the streets and never
without attracting attention. He did not live
here permanently for any great length of
time, but was a frequent sojourner, and sub-
sequently took up his residence in New York.
When the London police arrested him the
other day on suspicion of being the murderer
he said that he belonged in New York. The
police found that they could not get enough
evidence against him to hold him for trial,
but they succeeded in getting some sort of a
charge, sufficient to hold him under one of

The Littlechild Letter is discovered 80 years later – February 1993

In February 1993, retired Suffolk Constabulary police officer and crime historian Stewart Evans discovered an important piece of evidence that was hidden for decades. Amongst other letters, Evans acquired a private letter from a book dealer written by the chief inspector of Scotland Yard's Special Branch division at the time of the murders. The letter was dated 1913 and was addressed to a well-known British journalist, who had previously written a letter to the retired chief inspector asking about the twenty-five-year-old murder case. Not only did the chief inspector name the journalist who likely coined the killer's nickname of Jack the Ripper but he also gave the name of a suspect that he—a man who was inside Scotland Yard's inner circle—considered as “a very likely one”:

**Chief Inspector of Special Branch in
1888 John G. Littlechild**

*“I never heard of a Dr D. in connection with the Whitechapel murders but amongst the suspects, and to my mind a very likely one, was a Dr. T. (which sounds much like D.) He was an American quack named **Tumblety** and was at one time a frequent visitor to London and on these occasions constantly brought under the notice of police, there being a large dossier concerning him at Scotland Yard. Although a 'Sycopathia Sexualis' subject he was not known as a 'Sadist' (which the murderer unquestionably was) **but his feelings toward women were remarkable and bitter in the extreme, a fact on record.** Tumblety was arrested at the time of the murders in connection with unnatural offences and charged at Marlborough Street, remanded on bail, jumped his bail, and got away to Boulogne. He shortly left Boulogne and was never heard of afterwards. It was believed he committed suicide **but certain it is that from this time the 'Ripper' murders came to an end.**”*

He states that he was walking through Mitre square at about ten minutes past ten on Friday morning, **when a tall, well dressed man**, carrying a parcel under his arm, and rushing along in a very excited manner, ran plump into him. **The man's face was covered with blood splashes**, and his collar and shirt were also bloodstained. The gentleman did not at the time know anything of the murder.’ (Daily News (U.K.), 12 Nov, 1888)*

Tumblety had a uterus collection in 1861!

Colonel C. A. Dunham, a well-known lawyer who lives near Fairview, N.J., was intimately acquainted with Twomblety for many years...

*At length it was whispered about that he was an adventurer. One day my lieutenant-colonel and myself accepted the the (sic) 'doctor's' invitation to a **late dinner - symposium, he called it** - at his rooms. ...*

*Then he invited us into his office where he **illustrated his lecture**, so to speak. One side of this room was entirely occupied with cases, outwardly resembling wardrobes. When the doors were opened quite a **museum** was revealed--tiers of shelves with glass jars and cases, some round and others square, **filled with all sorts of anatomical specimens**. The 'doctor' placed on a table a dozen or more jars containing, as he said, **the matrices of every class of women**. Nearly a half of one of these cases was occupied exclusively with these specimens... Rochester Dem. and Rep., 3 Dec, 1888*

Tumblety had a reason to own an anatomical collection at that exact time and for the very crowd he was *'illustrating his lecture'* to. His dinner-symposium was for the officers of the General.

He did not own a medical diploma, thus lied about his background as a surgeon, but if he became accepted as a surgeon by the U.S. Army, he just bypassed this.

-Another Western New York Connection

Tumblety gave similar medical lectures in Buffalo, New York, just after he left Washington near the same time he gave the lecture in the capital!

Buffalo Courier, May 31, 1914

*One particular week that will ever remain notable in local history was in **July, 1863**. ...In fact quite an intimacy sprang up between him [John Wilkes Booth] and a Dr. Tumblety – or Tumulty. He drove around selling cure-alls for everything, **giving lectures with Thespian emphasis**. He frequently located himself on the Terrace, where he would draw big crowds by distributing bags of flour.*

Anatomical specimens were part of any medical lecture.

He loved to show off his anatomical collection

In the same year and just a month before Tumblety left for the capital, he was exhibiting images of anatomical specimens outside his New York office!

Vanity Fair, August 31, 1861

A CASE FOR THE POLICE – IF POSSIBLE

*...But if one quack is thus happily thwarted in his attempts to outrage decency and insult the public, why should another be quietly suffered to hang out his disgusting banners in our very midst? In a central part of Broadway – **we forget the exact Spot**, there are so many there to confuse the eye – the passers by are daily outraged by the **exhibition of certain anatomical pictures**, which look as if they might once have **formed part of the collection of a lunatic** confined in a leper hospital... He is generally accompanied by a large greyhound – a well-bred animal, but wearing a dejected look, as if ashamed of the company into which it has fallen. **The man's name is TUMBLETY...***

Francis Tumblety is the **ONLY** suspect who can be connected to each organ taken by Jack the Ripper, the **uterus**, **kidney**, and **heart**.

Surprisingly, in the **very same year of the murders (January 1888)**...

THE UBIQUITOS TUMBLETY

*Dr. Francis Tumblety, who was arrested in London recently on suspicion of being implicated in the Whitechapel murder, (sic) was in Toronto for a few days in January last. ...While here he informed a reporter of THE MAIL that he (the doctor) was suffering from a **kidney** and **heart** disease, and that he was **constantly** **in dread of sudden death**. (The Mail, Nov 23, 1888)*

After he died, his personal inventory showed he had these items **plus two cheap, or imitation, set rings.**

The most often reported reason why Scotland Yard suspected Tumblety of being Jack the Ripper was because of his **unusual hatred of women**, corroborating Littlechild.

“...but his feelings toward women were remarkable and bitter in the extreme, a fact on record.”
(Littlechild, 1913)

“He never failed to warn his correspondent [young Lyons] against lewd women, and in doing it used the most shocking language.”

-Grey River Argus, Feb 25, 1889

“He thought all women were impostors . . .

-New York World, Dec 5, 1888

Non-newspaper Source

Tumblety's own words in a private letter to boyfriend Henry Hall Caine (1874):

-In morals and obscenity they are far below those of our most degraded prostitutes. Their [Chinese] women are bought and sold, for the usual purposes and they are used to decoy youths of the most tender age, into these dens, for the purpose of exhibiting their nude and disgusting person to the hitherto innocent youths of the cities.

Tumblety even published his threat to young, available women in his 1866 autobiography!

Tumblety even published his threat to young, available women in his 1866 autobiography! (referring to his appearance at St. John, New Brunswick, Canada, in 1860)

Tumblety had a killing air, Though curing was his professional trade, Rosy of cheek, and glossy of hair, **Dangerous man to widow or maid.** . . . Excerpt from a poem out of a St. John newspaper, the *Albion*.

His threat against women in St. John was noticed enough to be reported:

Tumblety even published his threat to young, available women in his 1866 autobiography! (referring to his appearance at St. John, New Brunswick, Canada, in 1860)

*About the time that the war broke out, in 1860 or 1861, Dr. Tumblety made his appearance at St. John. . . After a while the more intelligent people got their eyes open to the fact that he was a charlatan, and pretty soon afterward stories began to go round about his **indecorus (sic) treatment of some of his lady patients.***

-Boston Herald, November 25, 1888

Tumblety's misogynistic ANGER against his young, available female patients was even noticed in England 15 years later ...as reported by a journalist who had no idea of his misogynist reputation:

Liverpool Leader, January 9, 1875

*There comes to us a tale of a decent woman from the Isle of Man who sought his advice respecting a bad leg. He told her it was due to the immorality of her parents, but would cure it for 3 pounds. **This she declined, whereon he [Tumblety] ordered her to get out legs and all or else he would kick her out! Other women young and unmarried, have fled in alarm from his premises, and say his language and conduct suggested danger.***

Tumblety traveled with surgical knives in the 1880s

Richard S. Norris stated in sworn testimony in 1905 that Tumblety introduced himself to him at a performance at the St. Charles Theatre during Mardi Gras, February 1881. Tumblety asked him to write a letter for him and invited him up to his room at the St. Charles Hotel. He accepted, and while in Tumblety's room. . .

“He then opened a large trunk (but in the meantime ordered some more ale) and he pulled out a velvet chest which had, I judge, four – three or four medals on each side – they looked to me like gold medals. He told me they were awarded to him by the English Government.”

Jack the Ripper likely used a surgical knife

*“Then there was a sort of tray in the trunk, and there were **all sorts of large knives** in there, **surgical instruments**, that is...*

There were large knives in the trunk; and then he came over to me, and felt my pulse, and felt my legs. I was smoking a cigarette at the time, and he said,

Ripper-like hatred of Prostitutes

*“Then there was a sort of tray in the trunk, and there were **all sorts of large knives** in there, **surgical instruments**, that is...*

There were large knives in the trunk; and then he came over to me, and felt my pulse, and felt my legs. I was smoking a cigarette at the time, and he said,

*“Throw that away”, and he handed me a cigar, saying it was bad to smoke cigarettes. **He said the trouble with young men are those cigarettes, and those confounded Street Walkers.***

*He said, if he had his way they would all be **disemboweled**.”*

St. Charles Hotel 1881

While Tumblety made out his last will and testament within a few weeks of his death in St. Louis in 1903, he actually had a 1901 will and testament on file in Baltimore, Maryland. In this will, [Tumblety bequeathed \\$27,000, in today's value, to the Baltimore Home for Fallen Women](#), which was a home specifically for assistance to [prostitutes](#).

How curious that to the very kind of woman Tumblety hated the most, he bequeathed so much money, yet he did not give a dime to most of his relatives.

Why?

While Tumblety made out his last will and testament within a few weeks of his death in St. Louis in 1903, he actually had a 1901 will and testament on file in Baltimore, Maryland. In this will, [Tumblety bequeathed \\$27,000, in today's value, to the Baltimore Home for Fallen Women](#), which was a home specifically for assistance to [prostitutes](#).

How curious that to the very kind of woman Tumblety hated the most, he bequeathed so much money, yet he did not give a dime to most of his relatives.

Why? This devout Catholic, who lacked remorse, was doing it for himself. He was attempting to earn his way into Heaven because of sins he had committed in the past.

The expert evaluation of the personality profile and motive of Jack the Ripper matches Francis Tumblety
